

Technical data sheet

Palladium

## Pd(II) Nitrate solution (10%)

|                    |                         |
|--------------------|-------------------------|
| Formula            | -                       |
| CAS No.            | -                       |
| Grade              | <b>RM HC 111</b>        |
| Description        | <b>Reddish solution</b> |
| Metal content      | <b>10%</b>              |
| Molar Mass (g/Mol) | -                       |
| Melting Point (°C) | -                       |

### Storage Condition

Store in a tightly closed container at ambient temperature.

### Application

Electro plating ,chemical synthesis. Strong oxidation.
