Technical Data Sheet

Palladium(II) chloride Solution (15–20%)

Formula	-
Molar Mass (gm/mol)	-
Grade	RM HC 110
Appearance	Reddish brown solution
Metal Content	15-20%
Melting Point (°C)	-

Storage Condition

- Store in a tightly closed container at ambient temperature.

Application

- Metal precursor for homogeneous catalyst in C-CK17 Coupling Reactions
- Selective Oxidation reaction of lower Aliphatic Alcohol
